Get Connected

The Sacramento County Office of Emergency Services, in partnership with City emergency agencies, cooperatively manage a state-of-the-art emergency alert system known as **Sacramento Alert (SacAlert)**. SacAlert is a web-based application that enables authorized County, City, and Special District public safety officials to disseminate public safety information rapidly and efficiently to Sacramento County residents.

All information in the Self Registration Opt-In Portal will be kept strictly confidential: www.Sacramento-Alert.org

Sacramento Alert (SacAlert)

To better ensure the receipt of public safety alert and warning notifications, residents are encouraged to scan the QR Code above and log onto the **SacAlert Citizen Opt-In** portal to provide their preferred and most optimal contact information through which they would like to receive notifications. This can include phone numbers as well as email addresses.

Your Neighborhood Zones.

Note where you and your family members live, work and go to school. Then mark down these locations on this map.

City of Elk Grove

It is important to stay aware of local fire conditions and, if needed, be prepared to leave at a moment's notice. When told to evacuate, go promptly. If you feel unsafe, do not wait for an evacuation order—*leave immediately.*

The Five Ps of evacuation

- People & Pets
- Papers
- Prescriptions
- Personal Needs
- Priceless Items

Emergency alerts & fire information

Wildfires can strike suddenly and without warning. Public safety officials will attempt to notify residents when evacuation is necessary, but this is not always possible. Advance preparation and situational awareness are required.

Evacuation Warning

An **Evacuation Warning** means that there is a danger to life and property. People should use this warning to get ready to evacuate. Those who need additional time should leave when the warning is given, rather than wait for an Evacuation Order.

Evacuation Order

An **Evacuation Order** means you must evacuate **now**. Staying could result in loss of life and/or slow the work of responders. An Evacuation order may be the only warning that you receive.
